Facility	72.50 x 34.50 2no 3 rd Generation Synthetic Football Facility	
Pitch System	<ul style="list-style-type: none"> • New 3rd Generation Soccer Grass BUILT ONTO EXISTING - <ul style="list-style-type: none"> • Sand Envelope System® Performance Control Layer • Dynamic granular stone base • Underlying piped drainage system 	
Other Features	<ul style="list-style-type: none"> • Permanent In laid Lines for football • Reconditioned free standing football goals 	
Dates	Resurfaced - October 2008	Originally Built - Summer 1999
Refurbishment Cost	£95,000 + VAT	
Point of Interest	<p>The original construction was installed in 1999, the work in 2008 was to replace the old VHAF® NottsSward sand filled surface with a new 3rd Generation soccer specific synthetic grass. The existing Sand Envelope System® was retained as when combined with the new 50mm monofilament 3rd Generation grass it complies with the FA Performance Standards for Artificial Grass Pitches for Community Use.</p> <p>The Sand Envelope System® & dynamic base system has proven to last the life of 2 carpets at sites throughout the UK providing customers with a system that can be reused rather than replaced and reduce the costs of refurbishment in comparison to other performance layers and shock-pads.</p>
